visability of running a trolley line from some point in Pauquier to deepwater on the Potomac.

One gentleman, speaking on the subject; thinks a single track road with six cars and a sufficient number of sidings would answer all practical purposes at first. This line, he thinks, on account of its unquestionable popularity, would sooner or later pay interest on the cost, besides adding in many ways to the comfort of the people. Gen. B. Day Spillman perfected this scheme while on his stay here at Christmas, and the logic of the plan has appealed to practical men in general. Cultager and Apponiannock now have a time in course of construction, and the general wish is, that Pauquier may follow in their footsteps.
